Customer Reference List

Purivox Airport Bird Control Gas Cannons

FBB

FLUGHAFEN
BERLIN
BRANDENBURG

"The gas cannons were delivered on time and are in working order to our satisfaction!"

Mr. R. K. / Officer Bird & Wildlife Control

- Radio remote controlled gas cannons with a operation range of up to 8km*
 - Activation within seconds for a fast and effective bird deterrence!
 - Easy to operate and to integrate in your daily bird control work
- Low operating costs / 11kg propane will last for around 20.000 single blasts
 - High quality product "Made in Germany"

* in a direct line of sight / depending on the used frequency

"The cannons are working very well. They are very useful, thanks to the remote control operation!"

Mr. J.G. / Wildlife coordinator

"The cannons have the desired effect and have exceeded our expectations!"

Mr. B.B. / Wildlife Control Manager at LUX

Purivox is offering you a well approved tool for your daily bird controlling with our radio remote controlled gas cannons. They will improve the effectiveness of clearing the birds from the critical areas near the runway!

Feel free to contact us for more details!

Customer pictures / Feedback from Riga Airport / Latvia:

**"our daily work is no longer imaginable without Purivox gas cannons.
This is the most commonly used deterrent method at RIX Airport "**
