

Acoustic airport bird control device

## Bird Gard Super Pro AMP

- Protects up to 12 hectares
- All-in-One Unit with 20-Speaker Tower
- Ideal for airfields
- Sound chips easily replaced in the field
- Solar powered
- Easy to use

The Super Pro Amp is the most powerful acoustic bird control system. It includes two high-output amplifiers driving our specially designed 20-speaker tower. The intense, sound output effectively covers up to 30 acres (12 hectares).
